EXPERIENCE

Dutta Integrated Services

Aug 2025 - Present

Role - Software Developer Intern

- Solved a complex customer engagement problem by building a month-wise order tracking and analytics system using the MERN stack, identifying inactive customers through behavioral patterns and enabling data-driven retention strategies that improved customer retention by 10
- Solved the challenge of fragmented IPD patient record management by developing a centralized IPD patient timeline system for an HMS portal, enabling seamless chronological tracking of medications, diagnostic tests, and visit schedules, and significantly improving clinical visibility and operational efficiency for healthcare teams.

LoveinProperty Pvt. Ltd.

August 2024

Role - Frontend Developer Intern

- Built scalable and responsive web interfaces using React.js and Tailwind CSS, optimizing performance, consistency, and usability across multiple devices and browsers through a modular and maintainable frontend architecture.
- Optimized image assets and implemented efficient loading techniques, reducing page load time by 30% and significantly improving performance and user experience across devices.

PROJECTS

SKILLSCAN AI – Intelligent Resume Analyzer 🔗 | [Reactjs](#), [Nodejs](#), [Google OAuth](#), [MongoDB](#), [Gemini](#)

- Created an AI-powered resume analysis platform to address the common challenge faced by students and job seekers where resumes fail to match real job requirements, delivering clear insights on skill gaps and role alignment.
- Designed secure Google OAuth and email-based authentication with per-user request limits, and built scalable Node.js APIs to ensure controlled usage, data protection, and reliable system performance.

ECHOCIRCLE – A Social Website 🔗 | [Reactjs](#), [Expressjs](#), [Nodejs](#), [MongoDB](#)

- Developed a secure social media platform using JWT authentication and bcrypt encryption, enabling safe creation, sharing, and management of text and image-based user content.
- Built personal user profiles and a content management dashboard to streamline user and post handling, ensuring smooth performance and responsive behavior across all devices.

CERTIFICATIONS AND ACHIEVEMENTS

- Qualified at the college level for the Smart India Hackathon 2024 project submission.
- Achieved AIR 343 in the GeeksforGeeks Weekly Coding Contest. This shows strong problem-solving skills.
- Earned a Web Development Certification from Udemy. The course covered key frontend and backend technologies.
